

# TIMELESS LIGHTING

## WHY TIMELESS LIGHTING? WE SPECIALISE IN LAMPSHADES

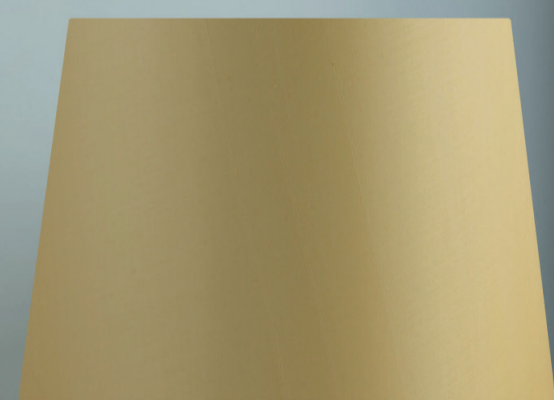

Most lighting distributors only showcase limited ranges of lampshades and often concentrate on the value end of the market. With nearly forty years of experience in decorative lighting, we recognised a gap in the market for quality shades made in the best materials with full offers in sizing and colour options.

Our initial core products featured classic styles of lined soft shades in 100% DUPION silks which besides great strength also feature a prominent slub effect giving an almost rustic feel. Our frames are heavier and stronger than standard and every shade has double edged trim in matching silk.

Using the same silks in a choice of five subtle colours we have now added five sizes of contemporary French drum hard shades plus a candle shade.

New for 2018 is a stunning range of fine pleat French drums in a choice of eight colours. Made from the finest Indian slub silk with matching silk linings. No other shades available in the UK compare in price or quality. Using the same silks we have also added 3 colours of classical fringed shades in 3 sizes. These classical Edwardian styles offer both traditional and contemporary solutions.

Our hard shades use the same high quality dupion silk as our soft shade collections, but in a wider range of colours
